

The Role of RDP

Assessment Task

The role of the RDP today (Group activity) (LO2 AS2)

Work in groups and investigate the current role of the RDP in a township where you live or one near you. Formulate five questions about the RDP and draw up a questionnaire that will test people's opinions of what the RDP is achieving today. Interview at least five people from a wide section of the community (such as your church pastor, a teacher, a business person, a housewife, a student and an unemployed person). Record their answers to the questions in your questionnaire. Assess your group's performance.
